PROFILE

Bachelor of Business Administration in Business Information Technology, specialising in Digital Services. I combine user-centred design, digital service development and project coordination with a background in healthcare, customer service and administration.

Through multidisciplinary projects, I have gained practical experience in UX/UI design, requirements gathering, prototyping and client collaboration. I am proactive, detail-oriented and motivated to improve digital services, user experiences and everyday processes.

WORK EXPERIENCE

HUS – Hospital Cleaner

10/2021–08/2026

Worked in a hospital environment, ensuring cleanliness, hygiene, and safety. The role required attention to detail, independent working skills, and collaboration with different healthcare professionals. Developed the ability to adapt to changing situations and follow strict procedures.

HUS Cancer Center – Medical Secretary

05/2024–08/2024

Worked at the lymphoma outpatient clinic, handling various customer service and administrative tasks. Responsibilities included appointment scheduling, patient guidance, telephone service, document processing, and electronic communications. Used the Apotti patient information system and Maisa service daily while collaborating with healthcare staff.

Seure – Early Childhood Education Assistant

08/2022–01/2024 | Part-time

Worked in various early childhood education centres, supporting children's daily care, learning, and activities. Developed strong communication and teamwork skills, as well as the ability to adapt to different working environments.

SOL Palvelut Oy – Service Supervisor

10/2018–04/2021

Worked at Hotel St. George in service and housekeeping operations. Ensured high-quality work, efficient task completion, and smooth cooperation with other hotel departments. The role required accuracy, organisation, and a strong customer service mindset.

EDUCATION

Bachelor of Business Administration (BBA), Business Information Technology

Haaga-Helia University of Applied Sciences | 2026

Specialised in Digital Services. Studies focused on digital service development, user-centred design, service design, project management, and the fundamentals of software development.

Vocational Qualification in Business and Administration

Business College Helsinki / Töölö Upper Secondary School | 2020–2021

Studied the fundamentals of business, customer service, financial administration, and office and professional skills. Completed a dual qualification programme.

PROJECTS & DEVELOPMENT WORK

DigiErko – Digital Service Development | 2026

University of Helsinki

Led a five-member project team developing a digital skills assessment solution for dental students. Contributed to project coordination, client collaboration, requirements gathering and UX/UI design.

Howspace – Multichannel Collaboration Platform

Haaga-Helia & Posintra Oy

Managed a six-person project team and contributed to UX/UI design, stakeholder research and digital collaboration platform development. Helped translate user needs into a structured Howspace workspace.

AI in the UX Process – Bachelor's Thesis | 2026

Haaga-Helia University of Applied Sciences

Explored how generative AI can support UX research, ideation, prototyping and evaluation. Developed a practical framework for integrating AI into a human-centred design process.

Museomatkat – Map My Trip | 2026

Museomatkat / Elämys Group

Contributed to a five-day Design Sprint, focusing on UX/UI design, customer journeys and interactive prototyping. Helped develop a concept connecting physical travel experiences with digital exploration.
